

MICHIGAN CHAPTER

Dear Great Lakes Activist,

Sierra Club's Great Lakes Program just released 'A Citizen's Guide to Protecting the Great Lakes.' It identifies priority problems of the Great Lakes that need immediate attention. Each topic includes a 'Take Action' section where you can learn how to protect our beautiful Lakes for future generations. To view the Guide, go to www.sierraclub.org/greatlakes. Read about what Michiganders are doing to protect the Lakes at <http://www.sierraclub.org/greatlakes/members.asp>.

Help spread this word to others by sending this message to your friends who want to protect the Great Lakes. Also, consider volunteering for the Great Lakes program by completing and emailing the information found below to melissa.damaschke@sierraclub.org.
